The Real Objective of the Allies is the Liberation of the World, And to Show the German Nation that Justice is Stronger than Tyranny

A Glimpse of the Hazardous Work of the Boys at the Front
In a remarkable letter a young wounded officer describes a fearsome situation in which he was placed when the company commander was shot dead and he was left alone with twenty-five men.

"With sixty men we arrived at our point," he writes, "and prepared to attack the Boches somewhere in the sixty men we arrived at our point," he writes, "and prepared to attack the Boches somewhere in the sixty men we arrived at our point," he writes, "and prepared to attack the Boches somewhere in the sixty men with machine guns, and it was our job to ascertain the nature of their trench, possible numbers, position of machine guns, and, if only small parties, to drive them out. Our company commander bounded across a few yards der, whereupon and myself jumped across, our men following in splendid order. Some, of course, only got their heads above the parapet, while you could hear the bullets whistling past your ears and going home into some man behind you with a sickening thad. The fallen lay where they were, while the remainder swept over the ground from one shell hole to another. Then shelind us started a long line of bursting shells, so with that behind us sant the Boche in front we had to stop where we were. The company commander was now shot dead, so was left with the remaining men, about twenty-five."

U. S. Wool Production

The wool production of the United States is inadequate to equip 2,000,000 soldlers in France and clothe them for twelve months' even if it were all suitable for military use says the Breeders' Gazette. The wool produced in America supplies only 50 per cent. of the amount used by woolen mills in peace times. The American standard of equipping soldiers and sallors and clothing them for one year demands a wool production of 20 average sheep for every man in war service.

We really are an amazing people.

Or ratifer officialdom acts from time to time and in our name with a fatuousness that makes us seem more amazing than in fact we are. A letter in yesterday's Times very neatly illustrates this characteristic. BUSY BIDEFORD

The following Red Cros work has been handed in: Mrs Proeter 7, Mrs. Conquest 5, Mrs. Stinson 1, amputation sox, Mrs. Lake 18 face cloths.

The Red Cross work goes on pace and there is keen compe tition between some of the knitters to bent each others records. One enthusiast can kuit any old place, whether bumping over the trail at 30 per in a Ford, or jogging along in an old buggy. The spirit of the townswomen is that they will ee the work through and make the boys over there as comfortable as they possibly can. More workers are needed and more money. Who will help us?

The new pump has been fitted in at the C. P. R. well and we feel that Bideford is being well looked after

All members of the Red Cross are requested to apply to the Secretary or to Miss Shannon, for their certificates.

The Minstrel Boys have not gone to the war, but will try and do their bit by singing and entertaining the folks who at-tend the Ice Cream Social. Any one who heard this excellent darky troupe on Red Cross night will know what to expect. Mr. Johnson (Jack Procter) and his merry men were a whole concert in themselves and dealt out the smiles so generously that some of the audience ached with laughter. Everyone come and hear these comical coons.

The Bideford Auto Club is the "livest" organization in this lit-tle burg, and the work they are engaged in of "lifting Alberta out of the ruts" is proving a real boom to the community. trails east have been cleared of stones and in most cases the holes have been filled up, but there are still too many "royal bumps" to suit some tastes. The appearance of the town would be greatly improved if there was a clean-up-campaign such as the cities are now insisting Will the children volunto gather up the debris teer to gather up the debris that has blown in from all-quarters and settled down for good around the south side of town? It would be a good-way of spending part of the vacation in the work that is next to godliness, and when the teacher returns from her holidays it would be nice for her to find the ground around her shack had been cleaned up by the scholars.

The Auto Club, with their many friends, made a run to Macklin on Sunday. The day was ideal, not too hot and the recent rains had laid the dust. The trip there and back was made in good time and was greatly enjoyed by the autoists. Many took advantage of the lake and had a swim.

PROCLAMATION

GEORGE the FIFTH, by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, KING, Defender of the Faith, Emperor of India.

Seas, KING, Defender of the Faith, Emperor of India.

To all to whom these presents shall come or whom the same may in any wise concern,—GREETING:

A Proclamation of conditional amnesty respecting men belonging to Class 1 under the Military Service Act, 1917, who have disobeyed our Proclamation of 13th October, 1917, or their orders to report for duty, or are deserters or absent without leave from the Canadian Expeditionary Force.

E. L. NEWCOMBE, Deputy Minister of Justice, able numbers of men belonging to Class I under our Military Service Act, 1917, called out on active service in our Canadian Expeditionary Force for the defence of Canada under Our Proclamation of 13th October, 1917, although they have thus become by law soldiers enlisted in the Military Service of Canada.

Have failed to report for duty as lawfully required of them under the said Military Service Act and the regulations thereunder, including the Order in Council duly passed on April 20 last.

Or have deserted.
Or absented themselves without leave from our Canadian Expeditionary Force,

And it is represented that the very serious and unfortunate situation in which these men find themselves is due in many cases to the fact that, notwithstanding the information and warning contained in Our Proclamation aforesaid, they have misunderstood their duty or obligation, or have been misled by the advice of ill-disposed, disloyal or seditious persons.

AND WHEREAS we desire, if possible, to avoid the infliction of the heavy penalties which the law imposes for the offences of which these soldiers have thus been guilty, and to afford them an opportunity within a limited time to report and nathe their services available in Our Canadian Expeditionary Force as is by law their bounden duty, and as is necessary for the defence of Our Dominion of Canada.

NOW KNOW. YE that we in the exercise of Our powers, and of Our good will and pleasure in that behalf, do hereby proclaim and declare and cause to be published and made known THAT THE PENALTIES OF THE-LAW WILL NOT EE IMPOSED OR EXACTED as against the men who belong to Class I under Our Military Service Act, 1917, and who have disobeyed Our Proclamation alonesaid; or who have received notice from any of Our registrars or deputy registrars to report for duty on a day now past and have failed so to report; or who, having reported and obtained leave of absence, have failed to report at the expiry of their leave, or have become legation from Our Expeditionary Force, PROVIDED TIEY REPORT FOR DUTY ON OR BEFORE THE TWENTY FOURTH DAY OF AUGUST 1918. NOW KNOW YE that we in the exercise

AND WE DO HEREBY STRICTLY WARN AND SOLEMNLY IMPRESS UPON ALL SUCH MEN, and as well those who employ, harbour, conceal or essist them in their disobedience, that, if they persist in their failure to report, absence or desertion until the expiry of the last mentioned day, they will be pursued and punished with all the rigour and severity of the law, SUBJECT TO THE JUDGMENT OF OUR COURTS MARTIAL WHICH WILL BE CONVENED TO TRY SUCH CASES or other competent tribunals: and also that those who employ, harbour, conceal or assist such men will be held strictly accountable as offenders and subject to the pains, penalties and forfeitures in that behalf by law provided for their said offence.

Provided however that nothing contained

tures in that behalf by law provided for their said offence.

Provided however that nothing contained in this Our Proclamation is intended to release the men aforesaid from their obligation to report for duty as soon as possible or to grant-them immunity from arrest or detention in the meantime for the purpose of compelling them to perform their military duty; Our intention being merely to forego or-semit the penalties heretofore incurred for failure to report, absence without leave or desertion incurred by-those men of the description aforesaid who shall be in the proper discharge of their military duties on or before the said twenty-fourth day of August, 1918.

Of all of which Our loving subjects and all others whom these presents may concern are hereby required to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed "Witness: Our Right Trusty and Right Entirely Beloved Cousin and Counselor.
